

Second Quarterly Briefing of 2021

Building The BeltLine For All

Questions & Answers

6.10.2021

Presenters made every effort to answer as many questions from attendees as possible live during this virtual meeting. The questions and answer portion of this meeting can be replayed [here starting at time stamp 1:01:00](#). All questions that were not answered before the meeting ended are reflected and answered below.

Live Questions and Responses

Other

1. **Are any skateparks planned for the beltline in the near future? How can we push the idea for more skateparks?**
 - A. We engaged the local and broader skater community in the design of a new facility that will be part of the Boulevard Crossing Park. While that design process will finish up later this year, we do not currently have funding identified for construction.
2. **Could you tell us how much each of these projects are costing?**
 - A. I'm not sure which questions you are referring to but will assume that you are referring to the construction portion of the presentation. The construction shown represents approximately a \$31M investment in construction cost. We are working with Neighborhood Nexus to create an investment map to share detailed information on investment by the Atlanta Beltline and hope to share that with the public soon.
3. **Is there any information about a skatepark at Westside Park. If not, who do we contact for that?**
 - A. That skatepark was part of the original Subarea Master Plan. As the oversight of design and construction for Westside Park is being handled by Department of Parks and Recreation, we suggest you reach out to that group to get the current plans for the park.
4. **Where can we learn more about grant opportunities?**
 - A. Here is the link to Facade Program <https://beltline.org/the-project/economic-development-commercial-real-estate/business-facade-partnership-grant-program/#overview>.
5. **Have you purchased the land on the Northside? If not, should this be a priority considering the higher cost of land?**
 - A. Yes, this is a very high priority. As we complete the study underway, we will move into real estate purchases as the next step.
